- If you're using VHLCentral for the first time, you'll need to accept the Vista Terms of Use before you can get started. These terms explain the rules for using VHLCentral and your responsibilities as a user.

#### School Selection and Confirmation

To choose the school where your course is being taught, you must search for the school by typing the name into the text box. If you've already selected a school before, you'll see it listed below the search button, and you can choose it again from there.
