Overview

The Supersite 3.0 Course Management Integration for Blackboard Learn™ 9.1¹ allows:

- For a one-to-one relationship between your Supersite 3.0 and your Blackboard course rosters.
- You to get to your VHL Central account from Blackboard via one login.
- Students to get to their Supersite assignments from Blackboard via one login.

Is integration suitable for your institution?

This level of integration may not be appropriate for all institutions, because it requires commitment on part of both the instructors teaching the course and the institution's IT support staff or Blackboard Administrator to set up and maintain the integration. The purpose of this document is to help you decide whether the benefits outweigh the work required to successfully setup and maintain the integration.

What is needed to get started?

- Your school must have an installation of Blackboard Learn™ 9.1 SP10 or higher.
- Blackboard Learn's Cloud Connection² must be enabled and Vista Higher Learning must be configured and activated as a partner. Contact your institution's Blackboard Administrator or Information Technology staff to assist with this step of the integration. You can provide your Blackboard Administrator with [documentation to assist with the setup](#).
- Your instructor account for your text's Supersite should have a corresponding course and section for each Blackboard Learn™ course and section you wish to integrate.
- Each of your students will need an account on your school's Blackboard server and an active VHL Central account with sufficient access³ for your book's Supersite 3.0 course.

How does integration work?

After you have set up courses in both platforms and your Blackboard Administrator has completed set-up within Blackboard, as an instructor you will complete the three-step process outlined in the following pages in order to:

- associate your VHL Central account with your Blackboard account, so whenever you login to Blackboard, you will also be logged into your VHL Central account.
- link your Supersite courses to your Blackboard courses.

¹ SP10 or higher.

² Cloud Services are available with SP10 and above.

³ Students are required to have Supersite Plus access privileges to the book's Supersite.

Integration Steps for Instructors

Step 1: Confirm Privacy Policy Settings in Blackboard

1. Log into your Blackboard account.
2. Using the Courses menu, go to the Blackboard Learn Content area in which you wish to link your Vista Higher Learning course.
3. Select Publisher Content, then select Commercial Content.
 In some versions of Blackboard Learn, the Publisher Content option is named Partner Content.

4. From the Commercial Content page, select Vista Higher Learning (click on the logo).
 Blackboard Learn's Cloud Connection must be enabled and Vista Higher Learning must be configured and activated as a partner by your Blackboard Administrator.

5. On the privacy policy settings page, adjust the settings as needed.

Vista Higher Learning
Launch page

1. User Privacy Information

Prior to accessing the Vista Higher Learning system, please review the following user privacy information.

If you agree to share your user information, the following will be shared with the Vista Higher Learning system:

- First name
- Last name
- Email address

If you do not agree, you will be prompted to fill in the user information manually in the partner application. Click Cancel to decline and return to viewing Blackboard content.

For more details, view the [Vista Higher Learning Privacy Policy](#).

I agree to share my user information with the Vista Higher Learning system.

I do not agree to share my user information with the Vista Higher Learning system.

2. Acknowledgment

You are now leaving Bb. Safe travels.

Do not show me this message again.

3. Launch

Click Launch to launch. Click Cancel to quit.

6. Click Launch.

[Forgot your password?](#)

 If you do not yet have an instructor account with the proper book access, please contact your Vista Higher Learning Modern Language Specialist (MLS). Find your MLS at <http://vistahigherlearning.com/contact/contact-a-rep/>

2. Click login.

 In future visits to Blackboard Learn, you will not have to log into your VHL Central account.

Step 3: Add a Link to Your Vista Higher Learning Course in Your Blackboard Learn Course

1. After completing Step 2 (synching your VHL Central login to your Blackboard account login), on the Course Connector page select the course section for the Vista Higher Learning textbook that you want linked to your Blackboard Learn course.

 Only courses set at the Supersite Plus access level are available for integration.

The screenshot shows the CourseConnector interface. At the top, there is a navigation bar with 'return to Blackboard', 'Shanon Nikzache', 'Home', 'Help', and 'Log out'. Below this is the Vista Higher Learning logo and 'vhlcentral' branding. The main content area is titled 'CourseConnector' and includes a dropdown menu for 'Please select your school:' with 'VHL' selected. A 'Redeem a Code' button is present. Two course sections are listed: 'AP* SPANISH LANGUAGE AND CULTURE EXAM PREPARATION' and 'TEMAS', both with 'Spanish 101' sections.

2. Click ok.

3. On the “Vista Higher Learning Confirmation page,” you will add the Vista Higher Learning course homepage link to the desired Blackboard Content area. Click Browse to select a location other than the one that is pre-selected.

4. Click Submit.
